Promotions, new jobs**

Combining high-tech manufacturing methods and materials with a unique approach to the creativity and design aspects of the process, the new Evutec product lines capture both a sophisticated look and a durable solution for demanding lifestyle usage.

"We are very pleased to be making these new product lines available to Apple Store Customers. Our focus has been to design and manufacture products that transcend both form and function so that the consumer looks good while their devices are protected by technology," stated Brian Hall, General Manager for Evutec. "Several innovations were achieved while in the manufacturing process, which has resulted in a line of products that offer some of the most superior strength and protective qualities of any cases currently on the market."

Key Features:

All cases offer high style concept with trend setting original designs. Uses special composite materials such as Dupont™ Kevlar®, and Wood to provide improved protection against damage and at the same time offer a sleek solution with understated design sense. Various models compatible with iPhone 5/5S, iPad, and iPad Mini. Karbon S, SP and Wood S Series cases available now at the Apple Retail Stores and <http://www.apple.com>. MSRP \$39.95.

Ladies: The morning-after pill may not be as effective as you think.

One French drug company has said that a woman's weight determines whether the drug will work for her or not.
