Comments 1

Evutec has released new cases for the iPad Air and iPad Mini and their Karbon and Wood cases are now available for Samsung Galaxy S4 as well

We reviewed the [Evutec cases for iPhone 5/5S](#) recently and are even conducting a [giveaway](#) right now. While the lineup of devices for which these cases are available is pretty small, they have announced that the cases have now been released for iPad Air and iPad Mini as well.

Marking their first foray into cases for Android devices, the Karbon and wood cases are now available for Samsung Galaxy S4 as well. Evutec is known for its cases That contain DuPont™ Kevlar® for super strong durability in an ultra-thin and lightweight design. Those looking for lightweight and good-looking cases would like these.

Evutec's Cases for iPad Air and iPad Mini

The texture of wood always feels amazing, and it is a delight to have an option of having it on your iPhone in multiple shades and colors. The cases are extremely lightweight, look great and are sure to give your device a protection from all the regular scratches and bruises. Here's a look at the cases from the Evutec booth at CES 2014.

From the Press Release for iPad Air and iPad Mini Cases

Evutec, a leading manufacturer of high quality mobile phone and tablet cases today at CES 2014 announced the launch of iPad Air and iPad Mini 2 Cases.

Combining high-tech manufacturing methods and materials with a unique approach to the creativity and design aspects of the process, the new Evutec iPad Air and iPad Mini 2 (retina display) cases capture both a sophisticated look and a durable solution for demanding lifestyle usage.

"We are very pleased to be showcasing the new iPad Air and iPad Mini 2 protective cases during CES 2014. Our focus has been to offer products that protect the iPad Air and iPad Mini 2 with advanced composite materials such as DuPont Kevlar, Wood veneer infused with Kevlar, and offer vibrant colors with our G-fiber Technology" stated Brian Hall, General Manager for Evutec. "Now these sleek and innovative devices can be kept safe while maintaining the cutting-edge design that the market has come to expect from Apple."
