MARSHALL ELECTRONICS 2167
### VSW-2200 Seamless Switcher

Marshall Electronics' new VSW-2200 Seamless Switcher with four inputs allows smooth transitions between camera views, allowing it to be used in live broadcasts, teleconferences or live streamed events.

MEDIAMATRIX (PEAVEY) 1033
F-DCM Networked Audio and Control I/O Node

The F-DCM is a networked audio and control input/output node that supports both Dante and CobraNet audio transport protocols for efficient and convenient extension of audio and control inputs and outputs in networked systems. A two-in/two-out network device designed for legislative chambers, it can also be used in courtrooms and conference rooms.

MEYER SOUND 1243
LEOPARD Linear Sound Reinforcement System

The new LEOPARD linear sound reinforcement system is the smallest and most versatile member of Meyer Sound's flagship LEO Family. Boasting tremendous power-to-size ratio with ultra-low distortion, an array of six LEOPARD loudspeakers with two accompanying 900-LFC low-frequency control elements can be flown using only a half-ton motor.

MIDDLE ATLANTIC PRODUCTS 2517
DisplayStation Series

The DisplayStation Series is a new collection of carts, stands and monitor walls that are application-engineered for easy integration. Every model is designed for professionally finished installations with a support channel featuring an integrated power strip and convenient cable-management system that simplifies wiring during installation and servicing.

NANOLUMENS 4759
NanoSlim Engage LED Display

NanoSlim Engage is a front-installable, front-serviceable 2.5 mm LED display. The high-resolution, large-scale visualization solution is backed by a corner-to-corner six-year warranty and is designed to serve as the ideal display solution for boardrooms, control centers and other areas where clear and up-close viewing is required.

NEC DISPLAY SOLUTIONS 1900
PH1202HL Laser Phosphor Projector

The PH1202HL is a laser phosphor projector that delivers full HD 1080p native resolution. The lampless projector uses blue laser with yellow phosphor as its light sources and emits consistent light output over its lifetime. The laser projector emits 12,000 lumens of brightness and maintains a 10,000:1 contrast ratio.

NEUTRIK 635
etherCON Cat6A

Neutrik is introducing its third and most powerful etherCON range of products to date: etherCON Cat6A. The new etherCON Cat6A line includes a cable carrier complete with a Cat 6A RJ45 connector for self-termination, feedthrough D-size chassis connectors and IDC-termination D-size connectors. etherCON Cat6A is fully downward compatible with etherCON Cat5.

NEWLINE-INTERACTIVE 3187
TruTouch X7 System

The TruTouch X7 is a totally integrated system featuring an Android interface that allows a single touch to turn the display into an interactive whiteboard while interacting with the videoconferencing participants. The entire meeting, video and audio can be recorded and emailed in a non-proprietary format directly from the X7.

PLANAR 1943
DirectLight LED Video Wall

The DirectLight LED Video Wall System combines a proprietary, advanced design across a choice of four resolutions ranging from 1.6- to 3.1-millimeter pitch, providing exceptional visual performance, thin mounting depth, precise alignment, mission-critical reliability and adaptability to different customer uses. It can be optimized for a wide range of indoor environments as well as light-controlled conference rooms, auditoriums and control rooms.

PLATINUM TOOLS 3779
EZ-DataLock Strain Relief

EZ-DataLock Strain Relief has been designed to protect and secure a data network 24/7 by locking cables in place that are not to be disconnected. When locked, the cable will remain so until the key holder unlocks it. It also doubles as a snag-proof strain relief.
