**DX Racer Air Series** — DXRacer Air Series was built from the ground up on a signature ultra-breathable mesh, replacing the traditional foam and leather upholstery to keep cool through long gaming sessions. A durable suspension spring system, built-in adjustable lumbar support, and an exclusive memory foam headrest come together to lead the next generation of gaming chairs. **\$499 (D7200) & \$469 (D7100)**

**Insider Connected from Stern Pinball** — Insider Connected is the greatest advance to pinball in decades, enabling players to interact with the game and a global network in a variety of ways. It presents professional operators with a robust set of tools to drive location play, build player loyalty, analyze performance, make adjustments remotely and maintain machines. **Free (\$40/year for All Access)**

**EVGA X20 Gaming Mouse** — EVGA brings you the world's first triple sensor mice with dual LOD sensors, paired with a Pixart 3335 optical sensor on the X20. Most gaming mice use the mouse's primary sensor or an additional LOD to detect the lift-off distance, while the EVGA X20 uses a more advanced 3-Dimension Array Tech. This system uses a triple sensor algorithm to detect the position where you lift the mouse off a surface and put the mouse back down, achieving the shortest and most accurate lift-off distance. **\$75**

**AKG Lyra** — Whether you're podcasting, making YouTube videos, live streaming, or recording your next hit, easily do it all and sound like a pro with the AKG Lyra Ultra HD, multimode USB microphone. For more than 70 years, the world's greatest recordings and performances have been captured through AKG microphones; now it's your turn. Simply plug Lyra into your PC, Mac, phone, or tablet and you're ready to go. **\$149**

**Lenovo Legion Tower 5i** — The Legion Tower 5i Gen 6 Desktop is tower gaming refined. With an 11th Generation Intel Core i7-11700 Processor with vPro, a Windows 11 operating system, and an NVIDIA GeForce RTX 3070 8GB graphics card, the Legion Tower 5i offers unparalleled game performance. Stream and record gameplay easily with Intel Quick Sync Video and store dozens of games with a one TB 700 RPM HDD and 512 GB PCIe SSD. And if that's not enough, a dual hard drive configuration is available. **Starting at \$1,630**

**NVIDIA 3090 GPU** — The GeForce RTX 3090 is a big ferocious GPU (BFGPU) with TITAN class performance. It's powered by Ampere — NVIDIA's 2nd gen RTX architecture — doubling down on ray tracing and AI performance with enhanced Ray Tracing (RT) Cores, Tensor Cores, and new streaming multiprocessors. Plus, it features a staggering 24 GB of G6X memory, all to deliver the ultimate gaming experience. Starting at **\$1,499**

**EPOS | Sennheiser GSP 600** — Engineered to deliver competitive edge-boosting performance, the GSP 600 delivers high audio fidelity and exceptional realism with precise accuracy. The microphone's flexible lift-to-mute boom arm allows for the best voice pick-up position and its ergonomic design delivers comfort for long gaming sessions. **\$149**

**Dustsilver Cyberpunk Swappable Gaming Keyboard** — This gaming keyboard features everything you need and then some. With fully replaceable mechanical switches, PBT keycaps, and an all-over dye sublimation, it's also quite the eyecatcher. The switches come in black, blue, red, and brown — and a full set of each color comes in the box. The keyboard also offers three-way cable routing to work with whatever setup you have. **\$129**

**Asus ROG Flow Z13** — The Asus ROG Flow Z13 is the CES 2022 Best Gaming Laptop winner and a top pick for gamers on the go. The ASUS notebook PC features an AMD Ryzen 9 processor and 16GB of RAM for uninterrupted gameplay at high-resolution settings. The NVIDIA RTX3050 Ti V4G graphics card produces high-quality visuals. The 2-in-1 display may be the most innovative feature of the laptop, essentially acting as a Surface Pro for gamers. With a 13.4-inch WUXGA display and a weight of 2.9 pounds, the ROB Flow Z13 is compact and portable while still being robust. **\$1,490**

**Backbone Mobile Controller** — Portable mobile gaming is getting a boost with the addition of a controller that clips directly onto your smartphone. The Backbone Mobile Controller can record and edit game clips, has plug-and-play capability for iPhone, and has the lowest latency of any gaming device for iPhone. The controller will also consolidate all your games with an included app. One month of XBOX Game Pass Ultimate is included with purchase for new members. **\$100**
